

## TDR351

### Washing ribbon

TDR351 washing ribbon has extremely high scraping, print resolution is excellent, high density. Anti static back coating is easy to effectively protect the print head. With outstanding print quality, adapt to the clothing of different washing label, ribbon, wash resistance and high temperature ironing. Is the world's one of the highest performance to price ratio washing ribbon.highest.

### Ribbon Specification:

ITEM	SPECIFICATION
Carrier	PET Film
Base Film Thickness	4.5 μ m ± 0.1 μ m
Color	Black
Ink Thickness	2.5 μ m ± 0.2 μ m
Ink Melting Point	-
Reflection Optical Density	≧ 1.0
Chamber Test	Stored for 72 hours at 50 DEG C, the image characteristics of well preserved, and no adverse reaction.

### Features' Chart:

Sensitivity	Density	Versatility	Solvent Resistance	Durability
4	4	3	2	3.5

### Performance Characteristics

Excellent scratch resistance, smear, performance and tolerance of alcohol and other chemical substances;  
 After washing, detergent (including dry cleaning mode) after washing, still maintain a clear image;  
 High temperature ironing, more excellent quality;  
 Continuous printing, no adhesion washing mark case;

### Recommended Applications

To adapt to the clothing of different washing mark, ribbons, etc.

### Recommended Substrates

Washing cloth standard

Ribbon
